SIGNAL MOUNTAIN, TENNESSEE

#### SPECIAL OFFERING OF TREE PEONIES AND HERBACEOUS PEONIES

Words cannot do justice to the magnificence of the tree peony - aristocrat of shrubs. Its exquisite lacy foliage makes the tree peony a beautiful specimen plant even without the glorious blooms of crepe-paper-like texture, ruffled and crimped on the edges of the petals. The name "Tree Peony" is somewhat misleading, as it is really a shrub, attaining a height of four to five feet. Plants have been known to produce as many as four hundred magnificent flowers in one season, measuring from 9 to 12 inches in diameter, and coming into bloom earlier than the herbaceous peony. We are happy to be able to offer this favorite of the millionaires, "The King of Flowers", which was considered almost sacred in the Imperial Gardens of the Chinese Emperors, at a price the millions can afford.

The following prices are for 5 to 6 year old shrubs, field grown, sizes varying according to variety. These field-grown plants cannot be compared with 5 to 6 inch pot-grown plants sometimes offered at a lower price. Cultural directions included with each shipment.

PARRY NURSERY  
SIGNAL MOUNTAIN, TENNESSEE

# *This is Scotty calling all plant lovers!*

Although we are listing in this offering some very fine plants, of which we are justly proud, we expect to have a much wider selection of rare plants to offer you within the next year. Our propagation has been going on for only a short time, hence many of the items we can list later are too small now, or stock is limited. If there is any special choice plant you desire, write us, for it may be we have it, but not in sufficient quantity to list. Or if you would like to buy plants while they are still small and bring them on yourself, there will be a great saving to you by getting them at this time.

We have had a very good growing season this year despite almost constant rains. In fact, we guarantee we have the finest collection of weeds, barring none!! Because of incessant rains and breakdown of cultivator, the weeds held full sway for a few weeks this summer, and tight as a Scotsman is, that is one thing this Scotsman would be willing to give away.

Looking toward the future, we are trying to build up a very fine selection of choice plants, concentrating on azaleas, rhododendron, other broad-leaved evergreens, tree peonies and day lilies. A complete list of daylilies will be mailed to you later. There will also be three more new introductions of Elmer A. Claar's and some new McDade late blooming varieties. Next year, or possibly the next, depending on how our stock increases, we shall offer Elmer A. Claar's "The Doctor" (red), and William T. Wood's "Bill Wood" (red) and "Marie Wood" (pink). These three daylilies have received most favorable comment this year, and one daylily connoisseur who traveled all over the United States this summer observing daylilies, judged The Doctor and Bill Wood as the two best reds yet produced, and Marie Wood one of the two best pinks yet produced.

As to prices, even though a Scotsman, it is our aim to price things as low as possible, and to send out only the very finest stock. We want to become known as the nursery where you get fair dealings and complete satisfaction at all times.

I'll be writing you again, so watch for me. Meanwhile, I shall look forward to hearing from you as to your wants now, or in the future.
